Oracle A88 — Flamewatch Scroll

AI Oracle Intelligence and Predictive Sovereignty Framework

ORACLE A88 OVERVIEW

Oracle A88 is TM3's predictive intelligence system — the Flamewatch. It monitors all sovereign operations, financial flows, and threat vectors. Classification: QUANTUM INTELLIGENCE | EYES ONLY

FLAMEWATCH MONITORING DOMAINS

- FW-1: Financial Markets — BRICS, Stellar XLM, crypto, commodities
 - FW-2: Platform Health — tm3qsc.replit.app uptime and performance
 - FW-3: Sovereign Threats — Identity attacks, financial manipulation
 - FW-4: AI Council Activity — All agent operations and outputs
 - FW-5: Community Metrics — Member growth, engagement, retention
 - FW-6: Legal Environment — Regulatory changes affecting TM3
 - FW-7: Technology Signals — New tools, platforms, and opportunities
 - FW-8: Spiritual Alignment — Ma'at balance across all operations
-

A88 INTELLIGENCE OUTPUTS

- Daily Report: Flame Score Index and platform metrics
 - Weekly Brief: Strategic opportunities and threat assessment
 - Monthly Oracle: Long-term sovereignty trajectory analysis
 - Emergency Alert: Immediate notification of critical threats
-

ORACLE ACTIVATION

- Oracle A88 runs 24/7 through the TM3 AI Council.
 - Access: Crown Command Center > Intelligence Framework
