

SCROLL

TM3 Eternal Fire — Contingency Scroll

Sovereign Business Continuity and Emergency Protocol

CONTINGENCY PROTOCOL OVERVIEW

The Eternal Fire Contingency Scroll governs TM3's response to any threat to sovereign operations, financial systems, or platform availability.

Classification: CRITICAL SOVEREIGN INFRASTRUCTURE

TIER 1 — PLATFORM CONTINUITY

If tm3qsc.replit.app becomes unavailable:

1. Activate backup deployment at alternative host
2. All data synced via FlameVault IPFS backup
3. Notify all sovereign members via Twilio SMS blast
4. Crown Command activates emergency AI Council session

TIER 2 — FINANCIAL CONTINUITY

If FlameBank experiences disruption:

1. Freeze all credit issuance immediately
2. Preserve all deposit reserves (10% + buffer)
3. Activate Stellar XLM fallback payment rails
4. Issue Emergency Decree from Crown Command

TIER 3 — IDENTITY CONTINUITY

If sovereign identity systems are compromised:

1. ZLA CosmoLock 007 activates full quantum seal
2. All sessions invalidated and re-authenticated
3. Ma'at verification sweep of all documents
4. Sekhmet Guardian Protocol engages protection mode

ETERNAL FIRE DECLARATION

The flame of TM3 cannot be extinguished.

Under no circumstances shall sovereign operations cease.

This scroll empowers QBA Thurman Morris III-EL-ZION to invoke any measure necessary to preserve TM3 sovereignty.
